

# Pearl Hyde Primary – Geography - Routeway Cycle B

## Misty Mountain, Winding River

Learn about the characteristics and features of rivers and mountain ranges around the world, including a detailed exploration of the ecosystems and processes that shape them and the land around them.

#### **Our Changing World**

Revise the features of Earth, time zones and lines of latitude and longitude to pinpoint places on a map.

Find out more about map scales, grid references, contour lines and map symbols.

Learn about climate change and the importance of global trade.

Analyse data and carry out fieldwork to find out about local road safety.

Study patterns of human settlements and carry out an enquiry to describe local settlement patterns.

Learn about the characteristics and features of polar regions, including the North and South Poles, and includes a detailed exploration of the environmental factors that shape and influence them.

#### **Interconnected World**

Learn about the tropics and the countries, climates and culture of North and South America.

Identify physical features in the United Kingdom and learn about the National Rail and canal networks. Conduct an enquiry to prove a hypothesis, gathering data from maps and surveys before drawing conclusions

# Coastline

YR 1/2

YR 3/4

Learn about the physical and human features of coastal regions across the United Kingdom, including a detailed exploration of the coastal town of Whitby, in Yorkshire.

## **Understanding the World**

Be able to explore the natural world around them by making observations.

Be able to know some similarities and differences between the natural world around them and contrasting environments.

Be able to understand some important processes and changes in the natural world around them, including the seasons.

### Let's Explore the World

Learn about the characteristics of the four countries of the United Kingdom and find out why there are hot, temperate and cold places around the world.

Compare England to Somalia.

Carry out fieldwork and collect primary data in their locality.
